## Handita

The model 6700 handheld micromanometer can be used with pitot tubes, flow grids, differential pressure tubing or the optional velocity-grid (for average face velocity readings). it comes standard with the model 6715 TABmaster Capture Hood, but is also available for purchase separately.

## Features a Beneftrs

- Simultaneously measures and displays pressure, air velocity, and airflow
- Store up to 8000 measurements
- Works with pitot tubes, flow grids, and the optional velocity-grid
- Perfect for HVAC, TAB and Cleanroom
